

Flood and Drain Tables are widely used in commercial horticulture and the benefits they can afford are now available to the hobby grower who wants the best possible results and the highest yields.

The chief application of Flood and Drain technology (also known as Ebb and Flow) is in the production of large numbers of flowering or foliage plants. It is normally used either to produce young plants for future transfer to other systems or for the production of foliage or flowers with commercial value such as herbs. This is the active system for handling plants in pots or other individual units. It is highly efficient and very easy to manage and is considered to be the most dynamic and productive hydroponic production system in use today.

The Ultimate Flood & Drain Table

- **Fully Modular** – Snaps together in seconds – fits almost any space
- **Low Profile** – Max headroom
- **High Performance** – Brilliant plant performance – awesome yields

Growth Technology

The Electronic Interval Timer

These timers were developed especially for Flood and Drain applications. They have infinitely adjustable sequences so you can set them for the exact time it requires to flood your table. They are very practical, versatile and easy to use. Highly recommended for Flood & Drain gardening.

Full kit contents

- 1 FUTURE GARDEN tray 900 mm by 1200 mm.
- 1 Steel frameset in kit form
- 1 12mm inlet fitting w/screen
- 1 19mm outlet fitting w/screen & 2 extension tubes
- 1 Corex cover sheet
- 1 Submersible pump 500 L/hr
- 1 Tank 68 litre
- 1 Length 12 mm hose (1.5 m)
- 1 Length 19 mm hose (1 m)
- 2 Small jubilee clamps OO
- 1 Medium jubilee clamp OX
- 1 Full instructions
- 1 IONIC GROW nutrient 1 litre
- 1 IONIC BLOOM nutrient 1 litre
- 1 BOOST nutrient supplement 1 litre

The **Future Garden Flood and Drain Table** is designed for maximum yield and ease of use. Available in kit form or as separate components for total flexibility.

Steel Frameset Parts List

- 1 Base frame
- 4 Legs
- 1 Support strap
- 4 Adjustable feet
- 4 Threaded end caps
- 4 Plain end caps
- 4 Set screws M6
- 2 Nuts & bolts M6
- 1 Allen key
